

Upcoming Red Sea trip...

Simply The Best

22nd - 29th June 2012

Aboard [M/Y blue Horizon](#)

Itinerary Highlights:

Big Brother

A 400 metre long island offering fabulous wreck diving and wall diving. The wreck of the Numidia lies on the northern tip between 10 and 80 metres. The north-west side of the island houses the wreck of the Aida. Every section of this reef is covered with corals and life.

Little Brother

Boasts a very high concentration of life within a very small area. Fan coral forests, overhangs, hard and soft corals in a variety of astonishing colours... and of course there are plenty of fish! With regular sightings of hammerheads, thresher sharks, grey sharks and white tip reef sharks, at the right time of year.

Daedalus

This huge reef rises from the sea bed in the middle of the Red Sea. Easily recognized by its zebra-striped lighthouse, this massive reef offers some of the most amazing dives in the Red Sea. The sheer walls are covered in over-grown hard coral formations and a variety of reef fish. Napoleon wrasses and turtles are often cruising by, but make sure you keep your eyes open on the blue! Daedalus is one of those places where anything can happen... oceanic white tip reef sharks, grey reef sharks, a lonesome hammerhead shark or schools of them. The excitement and the sheer size of this reef means that you can do several dives and not get bored!

Elphinstone Reef

A Red Sea legend. One of the most beautiful reefs, with its north and south plateau's covered in hard and soft corals, this truly is an awesome reef.

All dive sites are subject to weather conditions and cannot be guaranteed.

\$1950 per person

To include: 7 nights aboard M/Y Blue Horizon with full board and 6 days diving, non-alcoholic beverages, 12lt cylinder, lead weights and trip escort. Our group price also includes all port charges and marine park fees (not including Egyptian visa fee), welcome dinner and hotel on arrival in Hurghada the 21st June, transfers to/from the vessel and complimentary NITROX Class for all participants.
